# ALUMINUM REAR BUMPERS

Far off the beaten track, there are endless possibilities, how vehicles can come in contact with ground or rocks.

Powder-coated and corrosion-resistant RIVAL Rear Bumper will stand up to damage and offer you a high level of bodywork protection while you explore new trails. Reinforced towing shackles with their 3.5-ton towing capacity will help you get back on track whenever you get a bit carried away. And with easy and quick installation on existing fitting points, you will be ready for your next journey in no time.

# ALUMINUM UNDERBODY ARMOR

Skid plate set includes:  
 Radiator, engine, gearbox, transfer case, fuel tank,  
 tank Adblue, front arms, differential

On off-road adventures, you might have to wheel in mud or sand or drive on rocky terrains. In these situations, a skid plate may be a lifesaver.

High-quality laser-cut RIVAL skid plates are a perfect solution to protect the underbody of your vehicle from rocks, logs, and scrapes.

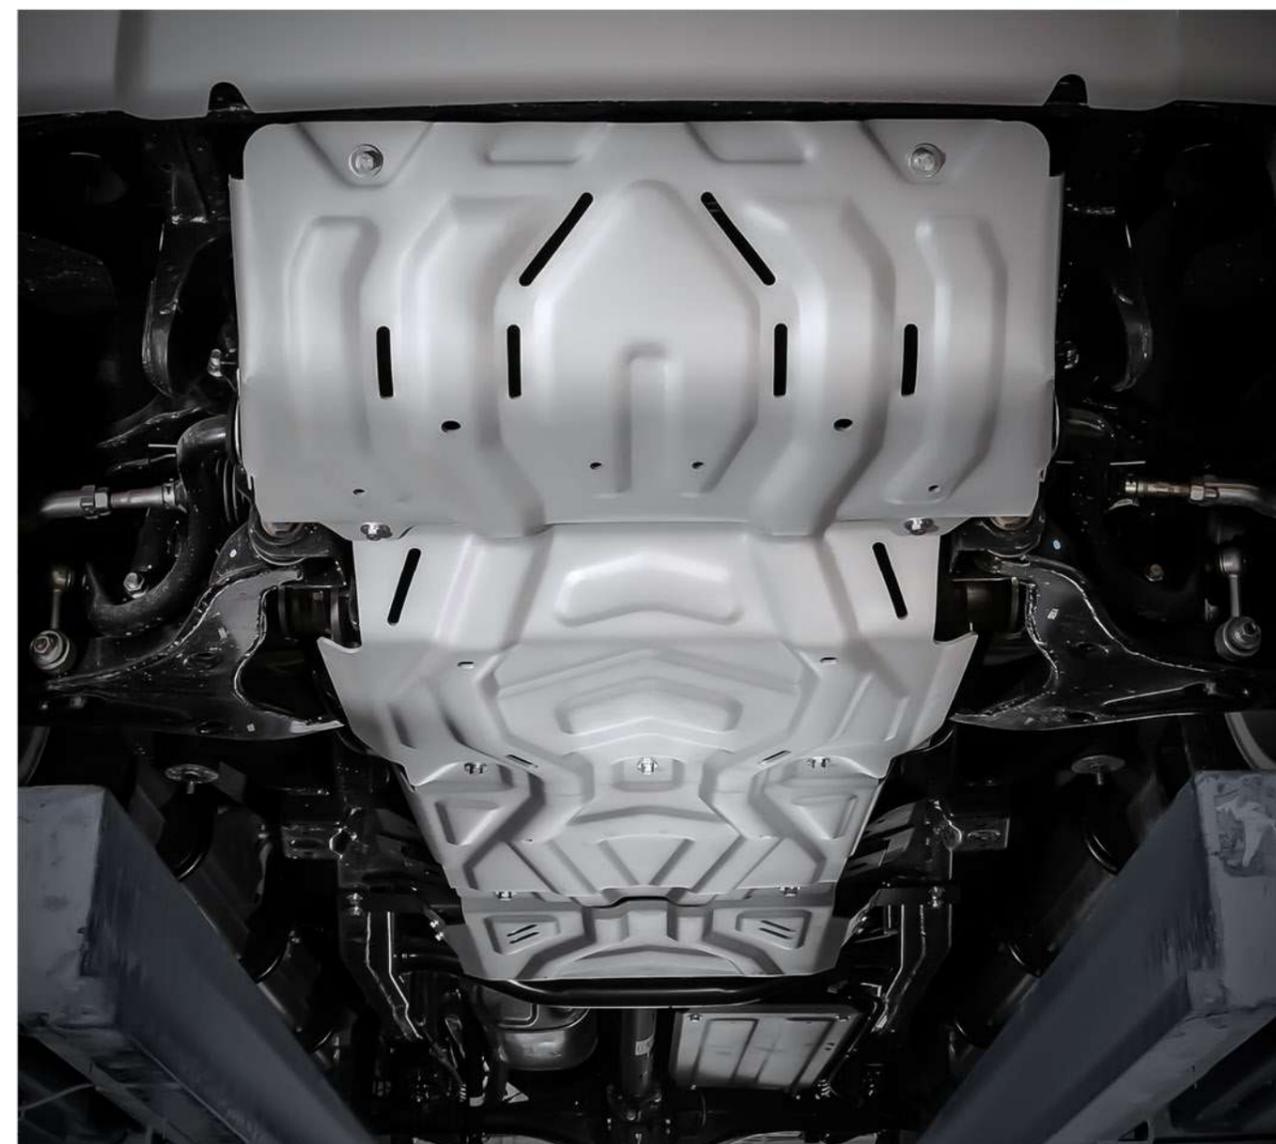

Made of lightweight deep stamped aluminium alloy or steel and combined with no-drill installation RIVAL skid plates offer extreme strength, durability, and high clearance solution for your roughest terrain adventure.

# TAILGATE SYSTEM

RIVAL tailgate assist kits will increase convenience during the opening of the tailgate and prevent it from jolting. No-drill installation onto OE fitting points can be done in less than an hour even if you are not an experienced mechanic yourself. OEM quality brackets and Stabilus dynamic struts ensure a smooth opening process and freehand operation.

# HOOD STRUT KITS

RIVAL hood struts strut kits allow you to access the engine bay without getting your hands and clothes dirty. Designed with Stabilus dynamic struts they provide you with additional safety and prevent your hood from slamming down while you are busy checking the engine. Due to their easy no-drill installation onto OE fitting points, you can be sure that you can fit RIVAL bonnet strut kits by yourself no matter your experience in vehicle maintenance.
